Work Experience

Payvent - Bucharest, RO | February 2025 – Present QA Engineer

- Established and owned the entire QA function for the company.
- Designed and executed test strategies, including test plans, test cases, regression suites and exploratory testing.
- Led QA efforts for two in-house products:
    - Ticketing platform for event organizers – validated end-to-end user journeys, workflows, integrations and scalability.
    - SaaS cashless solution – ensured reliability, security and functionality across Web, mobile and POS interfaces.
- Collaborated with developers, projects management, designers, technical support team and stakeholders to ensure seamless release cycles.

Achievements:

- ✓ Built the QA process from the ground up, reducing production defects by ~70%.
- ✓ Successfully supported multiple product launches without critical post-release issues.

EPAM Systems – Remote | September 2024 – Jully 2025 Cloud&DevOps Student

- Linux administration: package management, permissions, networking, monitoring.
- Bash scripting with AWK and SED; Python scripting for automation.
- Docker usage: Hub, Registry, Dockerfile, and networking.
- MS Azure: Creation, management and troubleshooting of various resources in the Azure ecosystem: VM, Storage, AKS, ACI, SQL DB, Load balancer, VNet, NSG, etc.

PTW Romania – Bucharest, RO | March 2024 – February 2025 Senior FQA Tester

- Conducted manual and automation testing on multiple projects, including API, functional, and UI/UX testing.
- Created, maintained, and executed test plans and test cases following QA best practices.
- Mentored junior team members in testing techniques, automation, and programming.

Achievements:

- ✓ Mentored colleagues to automation testing, leading to increased efficiency.
- ✓ Improved team performance by 50% through process optimization and mentorship.

PTW Romania – Bucharest, RO | June 2023 – March 2024 QA Tester

- Performed functional testing to identify bugs and ensure product quality.
- Managed full bug life cycle, providing detailed reports for developers.
- Worked closely with senior QA members to enhance personal QA skills.

Achievements:

- ✓ Maintained 100% bug accuracy on the assigned projects.

TesterWork.com, uTest.com, Test.io – Remote, RO | October 2022 – February 2025
